Welcoming path from sidewalk to entrance to building (stones are beautiful ... and, aahh, dangerous for some walkers). Vehicle parking at side and/or in back of building. No parking in front. Make this a people + beauty focus on the front to enter the Town of Montreat's tax-conscious, efficient-government operation inside. With the great Town of Black Mountain and Town of Montreat relationship and the sidewalk almost completed, there will be more walkers on this two-mile route of Highway 9, and, in my view, the Town of Montreat's new Town Hall should acknowledge this people + neighboring community + beauty spirit, while adhering to the budget figure envisioned for our new Town Hall. 6	I don't care what materials are used as long as the "feel" is inviting and maintains the "feel" of Montreat.	10/19/2018 4:47 PM
7	Would definitely like stone incorporated into exterior design but not necessarily covering the entire exterior. Use of stone inside is not a must, but could be nice way to tie in exterior and interior; however, on the inside, I think a little stone can go a long way. Maybe limit to accent, like if a mantel on a fireplace if there is one.	10/18/2018 4:21 PM

61	Adequate parking	10/11/2018 9:30 AM
62	wood and stone on exterior	10/11/2018 9:29 AM
63	Offices for town officials, comfort facilities and overnight lodging area for workers during snow and other weather emergencies	10/11/2018 9:29 AM
64	I think it would be great to use some stone both inside and outside of the town hall, but it's not a necessity. Also , a fireplace would be awesome, but also, not a necessity.	10/10/2018 11:08 PM
65	Such beautiful options. Thank you. Any would enhance the project, in my view, though only if the public budget allows. Pocket park by the stream would be dwarfed, in my view, by the long stretch of Flat Creek along Assembly Drive and Greybeard Trail. Stone is beautiful inside and outside. Fireplace is great. What does budget allow? What new expectations are potentially placed on Town staff with each option? Could private funds support some of these features, over time, without slowing down the project's completion? [That's back to the "flexibility" point in 1 on potential expansion over time.] Am big on sustainability features that produce -- water capture, solar panels, windows (as architects noted) -- though only if they actually produce savings.	10/10/2018 7:52 PM
66	Strategically placed stone on the exterior. Fireplace could be the stone component for both interior and exterior; add stone steps and another stone accent on the exterior.	10/9/2018 1:21 PM
67	not necessarily stone on whole exterior, but a generous use of stone	10/9/2018 1:04 PM
68	Adequate meeting space for council meetings, with good a/v. Conference room fir employees. Adequate secure stirage for police evidence and town recirds. Flood pfitection	10/9/2018 12:27 PM
69	meeting room for council meetings with sound system and ability to make video for viewing or placing the full meeting on the website	10/9/2018 11:30 AM

#	RESPONSES	DATE
1	No	10/23/2018 11:54 AM
2	It is not needed	10/23/2018 3:53 AM
3	Keep it simple. This town isn't/wasn't made with people looking for extravagance.	10/22/2018 5:36 PM
4	Enter building with few or no steps	10/22/2018 12:57 PM
5	durable and easy to maintain...use technology and know-how to under-gird the charm!	10/22/2018 10:16 AM
6	A couple of the options above make this sound like a house. I think the more you trend toward that the more you limit functionality. This is an office building.	10/22/2018 9:25 AM
7	Have a good plan for parking	10/22/2018 9:11 AM
8	Consider options for future expansion/growth.	10/21/2018 5:20 PM
9	A very small group gathering because we lack parking which will cost lots of money. Purchase Walkup Building and lease it back to the MRA and use it for meetings. This will save lots of money and will allow future expansion at the town hall also it will allow two sites to set up for emergencies. Make the building that will be easy to access. Move the police to the present building like most towns who have a separate police building. Use full panel glass doors for access from porches for staff and not inside halls. Have eye bolts to use for maintenance and safety on the outside of the building. Start a fundraising campaign so that the poor residents do not have to pay high taxes going forward. I will send my additional ideas if you e-mail me at michael.j.sonnenberg@gmail.com	10/20/2018 4:21 PM
10	No bigger than necessary.	10/19/2018 4:47 PM
11	If possible, it would be set back from road allowing some parking in front for visitors. A simple but nice sign and some landscaping would welcome people. This will be the first things folks see of Montreat and it will need to be nice and clean but not overly elaborate.	10/19/2018 4:22 PM
12	You're never going to please everybody, but if you keep with style of existing, older Montreat buildings, it would be hard to argue with decision.	10/18/2018 4:21 PM
13	With creativity it can "fit" Montreat with stone etc, but not be overly expensive. Thanks for asking opinions!	10/18/2018 8:59 AM
14	Make it practical and useful for staff, but do not make it an elaborate palace!!	10/16/2018 7:05 PM
15	This should not feel like someone's house. It should feel familiar to Montreat and have a sense of permanence. I'm not sure what the thought is behind the pocket park but the employees should have a place to sit outside, perhaps to eat lunch. I don't know that stone needs to cover the entire exterior but it is definitely in the vocabulary of Montreat.	10/16/2018 11:35 AM
16	Look and feel is important, even if it costs more now. Let's build a 100 year building for the future of Montreat	10/16/2018 10:08 AM
17	It should be the people's building. It should welcome and serve its citizens and those who work in the Town.	10/15/2018 11:44 PM
18	I trust the people who are there all year!	10/15/2018 4:50 PM
19	We're not shooting for architectural awards - the emphasis should be on functionality, accessibility, and easy maintainability	10/15/2018 3:52 PM
20	That it be one story but with a high roof with a stand-up attic for the storage of documents. Maybe with dormers for light and for beauty.	10/15/2018 2:52 PM
21	No need for a large meeting room. Montreat has enough large meeting spaces.	10/15/2018 11:47 AM
22	Hopefully will not be large -- even to hold public meetings -- as other MRA and College facilities can be used for such as such meetings infrequent.	10/15/2018 10:26 AM

23	metal roof, log benches, rockers on porch I am just remembering how we took the old maintenance shed and turned it into the lovely Bill Wilde. It doesn't take much to create a look that fits in here. Simple, straightforward. Its form should follow its function. Repeat the rounded rocks seen in the gate. Maybe a more cabin style with gables. I hope for plenty of natural light to make a cheerful, healthful workplace for our employees. Surely their input is carrying the most weight in all of these discussions! Thank you for this opportunity to share ideas.	10/15/2018 9:42 AM
24	Should be high enough above grade to avoid flooding of Flat Creek.	10/14/2018 4:29 PM
25	It should look very welcoming for guests and the people of Montreat, not so business like that it is imposing, and not a place that is uncomfortable to enter. Also a place for meeting outside vendors and others who help the progress of Montreat.	10/14/2018 2:06 PM
26	Large enough to grow into! Area to feature pictures of Montreat on the wall.	10/14/2018 9:54 AM
27	It can't be emphasized enough that it will be built one time so it should be bigger than we project and encapsulate enough space to allow for alterations if necessary later for unforeseen uses that may arise. This may mean additional expense up front. If expense is shown to be a major concern then the design could allow for a plan 'B' to expand later if necessary.	10/14/2018 7:07 AM
28	Metal roof	10/13/2018 1:38 PM
29	We have two kinds of people in Montreat. The wealthy for whom money isn't important. And others who like it very simple but using native stuff. That will be hard to bridge. The covered bridge is a good example. Not needed. a bit extravagant but those with money want it. So it happens.	10/13/2018 11:07 AM
30	A building worthy to be placed at the entrance of Montreat. It would be wonderful if some of the river rock used in the Montreat entry arches could be used in the building and park	10/13/2018 9:58 AM
31	Adequate convenient parking is essential with easy, safe entry and exit. Arrangement needs to allow for efficient, and professional business operations.	10/13/2018 9:44 AM
32	Wood and stone design elements should be used on the exterior. All stone on exterior is not necessary. Only a modest amount of stone on the exterior is needed. Also, only a very modest amount of stone should be used in the interior.	10/13/2018 6:44 AM
33	Building should include geothermal and solar systems, aiming for LEED certification. Include the "owner provided" items listed in the design plan as a part of this contract - such as all AV and communications needs for the command center. That will make the projected total cost show actual expense, since these items will be needed for adequate operations. Staff should be able to enter through a "mud room" area separate from main entrance or Police entrance.	10/12/2018 10:16 PM
34	none	10/12/2018 7:44 PM
35	a combination of shingles/stone with a porch and small interior gas fireplace	10/12/2018 5:54 PM
36	Avoid time wasting design; go for elegance in simplicity. We, as a people, are "decent and orderly." So should be our town hall.	10/12/2018 5:35 PM
37	Handicapped assessable and senior assessable	10/12/2018 6:46 AM
38	Thanks for opportunity to make suggestions.	10/11/2018 10:27 PM
39	Be sure to consult those using the space in making decisions about the layout of the interior.	10/11/2018 10:16 PM
40	native plants. Look at the nice planters in front of the Woodward /Ogden / house on Lookout Rd . They make a nice Statement but are manageable	10/11/2018 9:47 PM
41	Mold & moisture resistance, low VOCs, and ramps to access a flood resistant structure. Safety of employees, public restrooms, waiting areas, better soundproofing for private discussions. Access to better natural light and tree views. a semi-porous but permeable parking surface where handicap parking is situated so wheelchairs and walkers can navigate without fear of injury.	10/11/2018 9:17 PM
42	Neutral colors and flooring	10/11/2018 8:45 PM
43	This needs to be a reasonable, functional space built taking tax payer costs into consideration.	10/11/2018 6:52 PM
44	Improved quality of staff	10/11/2018 5:57 PM
45	few trees, let the sunshine in	10/11/2018 5:29 PM
46	Include signage detailing who for what is where	10/11/2018 5:12 PM
47	Make it a beautiful place!	10/11/2018 3:23 PM

48	need adequate space for needs that will exist in 20 years. Meeting spaces because as MRA and MC grow it becomes more difficult to schedule meetings	10/11/2018 3:09 PM
49	When you come down Montreat Rd. for the first time, you need to see and recognize the town hall. Signage is important. People need to feel welcome to come in and get information like maps, directions, use the bathroom, get water, I found when I worked in the Gate House that people looked at pictures on the wall. They did not know that Montreat had a college, Heritage Center, Inn, Store, 10 thousand village store, post office, Library, Chapel of the Prodical with fresco, homes, Robert Lake Park, Lake Susan, etc. They loved looking at the picture of Billy Graham and his family by their home. Pictures of the early days of Montreat would be interesting.	10/11/2018 3:01 PM
50	With taxes so high already that we are ahead of Biltmore Forest, if it cannot be built without raising taxes for it, just do with what we have...It has a long and proven track record...,otherwise you are pricing retirees out of the market in Montreat!	10/11/2018 2:55 PM
51	A welcoming building but please not a welcome center. This is a building for staff to conduct their jobs.	10/11/2018 2:43 PM
52	Tables and places to sit	10/11/2018 2:14 PM
53	I hope the present town building will be made pleasing on the outside since it will be part of one's impression of the new Town Hall site. I think this should be given careful planning regardless of how the building is used. With the prime location of the Town Hall, it is obviously important that everything looks great.	10/11/2018 2:06 PM
54	Elevated somewhat to avoid flood damage	10/11/2018 1:00 PM
55	keep in mind, this is a town of only 500 people, that has little if any growth for many years! A Taj Ma Hal has already been rejected. Please keep it simple, inexpensive and functional.	10/11/2018 12:39 PM
56	Should be modest with nice offices that provide a good working environment. Parking but not too much. Character should feel like Montreat.	10/11/2018 12:17 PM
57	The Black Mountain Town Hall would be a good template.	10/11/2018 12:07 PM
58	Stone on exterior is very important, but doesn't have to cover the entire exterior. All opportunities for use should be well defined ahead of time so that none of the entities will feel less important. Building should be a source of unity rather than strife.	10/11/2018 11:39 AM
59	Don't wait too long to build it.	10/11/2018 11:34 AM
60	Careful consideration to operating functionality/costs and to overall visibility of personnel except where privacy may be required such as in a police interrogation area. My business experience indicates that supervisors should be able to see those they supervise without leaving their offices. Very important that Town Clerk be able without moving from an office or having to get up from chair, be able to welcome/help those walking in the door as Angie now does so hospitably. What a positive difference Angie makes. A big design consideration will be how much, if any, space, to design or have multi functional for Town Council meetings.	10/11/2018 11:33 AM
61	Just build it and get it done.	10/11/2018 11:30 AM
62	Blend in with mountain surroundings.	10/11/2018 11:26 AM
63	Meeting space seems desirable. Perhaps the entry and meeting space can have shared purpose and space?	10/11/2018 11:22 AM
64	make sure that the Police force space as mandated is adequate	10/11/2018 11:21 AM
65	prayerful decision making by all	10/11/2018 11:20 AM
66	remove junk and trucks and tree debris from the creekside next to current MRA work shed. Make this area usable to public. Find another MRA spot for their "stuff".	10/11/2018 11:05 AM
67	Up to date equipment for town staff. If have to compromise, don't on what the town employees need to operate effectively.	10/11/2018 11:04 AM
68	make it similar to inn an college buildings	10/11/2018 10:56 AM
69	What does the staff need	10/11/2018 10:55 AM
70	Let's try to blend the rocking chair theme from Black Mountain into our thoughts. It could go a long way towards erasing the line between us. They have been gracious to us in this whole endeavor (annexing process).	10/11/2018 10:54 AM

71	It would be a benefit for the building to appear to be an aesthetic fir with the rest of the main structures in town.	10/11/2018 10:51 AM
72	plan for many years, functionality not design	10/11/2018 10:49 AM
73	Just make it look decent and not like a drugstore design. Thanks	10/11/2018 10:36 AM
74	Make it what is needed by employees, but cost-conscious regearding ameneties and building style/materials	10/11/2018 10:26 AM
75	only gratitude for the open approach you are taking to this project.	10/11/2018 10:25 AM
76	Parking lot with landscaping behind the building.	10/11/2018 10:23 AM
77	Multi-functional space, even a screened porch with a ceiling fan out back for informal meetings.	10/11/2018 10:09 AM
78	Montreat does not need a showpiece for its government. We are a community; Montreat itself is it's own showpiece.	10/11/2018 9:58 AM
79	Nice Signage, Comfortable seating in common or waiting areas	10/11/2018 9:53 AM
80	Continue the open dialogue!! Thanks!	10/11/2018 9:51 AM
81	Administrative goals with adequate space for open meetings	10/11/2018 9:49 AM
82	DON'T NEED AN "ASSEMBLY ROOM" FOR TOWN MEETINGS. PLENTY OF ROOMS AVAILABLE IN MONTREAT WE CAN USE/RENT	10/11/2018 9:47 AM
83	Public bathrooms for arriving travelers-	10/11/2018 9:46 AM
84	Nice enough that the employees are happy to work there.	10/11/2018 9:45 AM
85	The town hall will serve the town for a generation at least. The goal? Nobody looks back as says, "What were they thinking?"	10/11/2018 9:31 AM
86	perhaps raise foundation 4 feet to assure no flooding. a ramp could be used to reach front porch/entrance	10/11/2018 9:29 AM
87	I like Exterior design of Black Mt Town Hall - fits with neighborhood construction. You might move Gate to new area and make roundabout at entrance to town property.	10/11/2018 9:29 AM
88	Thank you, again, for the invitation extended to us to express our views.	10/10/2018 7:52 PM
89	10' ceilings, uniform hard flooring through-out, tight-weave carpet for conference room	10/9/2018 1:21 PM
90	energy efficient; easy to maintain	10/9/2018 1:04 PM
91	energy efficient, natural lighting where possible	10/9/2018 12:38 PM
92	Sidewalk on montreat road. ADA accessible building. Plan for expansion and growth.	10/9/2018 12:27 PM
93	build to meet the business needs of the Town- meeting space for council meetings, adequate restrooms and a space for staff for coffee/etc	10/9/2018 11:30 AM
